

Project Description

SMART Agreement Series 100

Start: February 2019 | 20 February 2020 | 100 hours

Page 10 of 17

Objectives

The SMART Agreement Series 100 is a project that aims to improve the quality of the data collected by the SMART system. The project will involve a number of steps, including data collection, data cleaning, and data analysis.

The project will also involve a number of other tasks, including the development of a data management plan, the development of a data collection protocol, and the development of a data analysis plan.

The project will be completed by the end of the year.

The project will be completed by the end of the year.

The project will be completed by the end of the year.
