36-2 x 1 1/2 XS BW ELBOW ANVILET

Universal elbowlets are welded to 90° long radius elbows as branch connections for pipes and fittings. They are also used as pipe hanger or support bosses.

Anvil Anvilets provide a strong branch pipe connection, considerably stronger than a welded pipe-to-pipe connection. Consequently, with good welding procedures, Anvil Anvilets offer greater resistance to distortion and bursting.

Anvil Anvilets readily and economically permit the adding of branch connectors to existing piping installations,

Specifications

Industry Standards/Certifications	MSS standard SP-97, ASTM A105, ASME B16.25
Type	Elbow Anvilet
Style	Butt Weld
Nominal Outlet	2 to 36 in
Nominal Header	1 1/2 in
Material	Forged Steel

Class	STD
Installation Note	Anvil Anvilets are designed to have no more than a 1/16" gap (1.6mm) between the base or skirt of the Anvilet when it is seated directly upon the appropriate run pipe. However, it is recommended that the skirt of Anvilets be held slightly above the run pipe and tack welded to provide a small continuous root gap between the skirt and run pipe before completing the all-around welding beads or fillet.
Product Number	0766256119
UPC Code	69029184113
HPH Code	NA
Weight	2.65 lb
