group: 4S00X04 **article:** 4S00E04 **category:** valves

The Apollo® Model DC4SGLF Double Check Valve is designed to prevent contamination of the potable water supply due to back-siphonage or backpressure from substances that are non-health hazards. The modular check valves have replaceable seats and reversible EPDM seat discs. Grooved connections on an epoxy-coated ductile iron body allow for easy connection to butterfly valves or gate valves.

- lightweight
- short lay length
- low pressure loss
- modular check valves
- individual access to check valves
- corrosion resistant epoxy-coated ductile iron body
- US patents #5,711,341 and #6,343,618
- made in the USA
