

Water Heater Pans

Engineering Specification:

Aluminum water heater pans can be installed under electric or gas water heaters to protect from water damage.

Plastic water heater pans can be installed under electric water heaters to protect from water damage.

All water heater pans come with 1" x 1½" PVC or 1" CPVC drain fittings to allow for connection to indirect drain.

- Manufactured from 22GA Aluminum sheet
- Come with pre-drilled hole
- 2½" Pan depth

Description		Inside Diameter	Outside Diameter
CWHPPA20	20" Aluminum water heater pan with 1" x 1½" PVC drain fittings, 22GA thickness	20"	21.75"
CWHPPA22	22" Aluminum water heater pan with 1" x 1½" PVC drain fittings, 22GA thickness	22"	23.75"
CWHPPA24	24" Aluminum water heater pan with 1" x 1½" PVC drain fittings, 22GA thickness	24"	25.75"
CWHPPA26	26" Aluminum water heater pan with 1" x 1½" PVC drain fittings, 22GA thickness	26"	27.75"
CWHPPA30	30" Aluminum water heater pan with 1" x 1½" PVC drain fittings, 22GA thickness	30"	31.75"
CWHPCA20	20" Aluminum water heater pan with 1" CPVC drain fittings, 22GA thickness	20"	21.75"
CWHPCA22	22" Aluminum water heater pan with 1" CPVC drain fittings, 22GA thickness	22"	23.75"
CWHPCA24	24" Aluminum water heater pan with 1" CPVC drain fittings, 22GA thickness	24"	25.75"
CWHPCA30	30" Aluminum water heater pan with 1" CPVC drain fittings, 22GA thickness	30"	31.75"

- Manufactured from 0.05" plastic sheet
- Come with pre-drilled hole
- 2½" Pan depth

Part No.	Description	Inside Diameter	Outside Diameter
CWHPPP24	24" Plastic water heater pan with 1" x 1½" PVC drain fittings	23.5"	26"

Part No.	Description
CPA112	1" x 1½" PVC drain fittings
