

# Product Specifications

## 1/4" X 1" Fender Washer

Part number FENW141  
Category number 4110  
UPC 781002155102

Fender Washers differ from standard Flat Washers in that their outside diameters are much larger in proportion to their center holes. With this design, a fender washer can be placed under the head of a bolt or nut, to help distribute forces applied when tightening, or to cover an oversized hole.

### Physical Characteristics

|                  |                  |
|------------------|------------------|
| Type             | Fender Washer    |
| Size             | 1/4" x 1"        |
| Inside Diameter  | 0.275" - 0.295"  |
| Outside Diameter | 0.992" - 1.029"  |
| Thickness (in)   | 0.047" - 0.080"  |
| Fits Bolt Sizes  | 1/4"             |
| Material         | Low Carbon Steel |
| Finish           | Zinc Plated      |

### Performance Data

|                                                                 |
|-----------------------------------------------------------------|
| Special Features                                                |
| Distributes Forces Evenly, Large Surface Covers Oversized Holes |
| Applications                                                    |
| General Purpose                                                 |

### Packaging Details

|                |      |
|----------------|------|
| Standard Qty   | 100  |
| Sleeve Qty     | 500  |
| Master Qty     | 3000 |
| Price Per      | 100  |
| Package Length | 2.18 |
| Package Width  | 2.92 |
| Package Height | 4.31 |
| Package Weight | 1.42 |
| Net Weight     | 0.01 |

### Certifications

|                |     |
|----------------|-----|
| RoHS Compliant | Yes |
| Meets/Exceeds  |     |
| ASME B18.21.1  |     |
