

Product Specifications

3/8"-16 x 2" Hex Head Tap Bolt

Part number MB382
Category number 4090
UPC 781002588108

Hex Head Tap Bolts are used to pull assemblies together over a long length, such as with wood and timber connections. They are also used where adjustments are needed, and can serve as levelers for tables and frames. For adjustment applications, they may be used with jam nuts to secure the assembly in place. They are manufactured to IFI-199 standard.

Physical Characteristics

Type	Tap Bolt
Head Type	Hex
Grade	A
Thread Style	Fully Threaded
Thread Type	2A
Point Type	Non-Pointed
Size	3/8" x 2"
Dia./Thread Size	3/8"-16
Head Size	9/16"
Length (in)	2"
Thread Pitch/Thread Per Inch	16
Material	Low Carbon Steel
Finish	Zinc Plated

Performance Data

Tensile Strength (psi)	60000
Rockwell Hardness	HRB 69 - 100
Special Features	Fully Threaded, Corrosion Resistant, Zinc Plated
Applications	General Purpose

Packaging Details

Standard Qty	100
Master Qty	1000
Price Per	100
Package Length	6.10
Package Width	4.70
Package Height	2.90
Package Weight	6.80
Net Weight	0.07

Certifications

RoHS Compliant	Yes
