

#12 x 2-1/2" Phillips Flat Head Brass Wood Screw

Part number PHFWB12212
Category number 4290
UPC 781002383628

Brass Wood Screws are manufactured with an aggressive thread style that has a higher degree of grip strength when used on materials such as plywood, lumber and other woods. They are made with a countersunk head that provides a flush surface after installation and are manufactured from solid brass for corrosion resistance. When working with wood screws it is suggested that a pilot hole slightly smaller than the diameter of the fastener be used to prevent materials from splitting.

Physical Characteristics

Type	Wood Screw
Drive Type	Phillips
Head Type	Flat
Thread Type	WSSL
Point Type	Gimlet
Size	#12 x 2-1/2"
Dia./Thread Size	#12
Head Diameter	0.438" - 0.389"
Length (in)	2-1/2"
Head Height	0.132"
Thread Pitch/Thread Per Inch	11
Driver Size	#3
Material	Brass

Performance Data

Special Features
Provides a Flush Surface, Aggressive Threads, High Degree of Grip Strength, Rust Resistant
Applications
Plywood Lumber and other Woods

Packaging Details

Standard Qty	100
Master Qty	1000
Price Per	100
Package Length	5.59
Package Width	4.09
Package Height	2.68
Package Weight	2.05
Net Weight	0.02

Certifications

RoHS Compliant	Yes
Meets/Exceeds	
ASME B18.6.1
