

SMART Filter Seal

SMART Filter Seal is a durable yet flexible high-strength film designed to fit tightly over the air filter slot on the return air plenum and prevent air from bypassing the filter and thus improve indoor air quality. Magnets surrounding the perimeter hold it tight against the plenum to prevent air leakage. It can be easily removed to change out dirty air filters and replaced again. The 2009 edition of the International Energy Conservation Code (IECC), section 403.2.2 states, "Sealing all ducts, air handlers, filter boxes, and building cavities used as ducts shall be sealed." The SMART Filter Seal fulfills that requirement. Both the U.S. Department of Energy and Energy Star recommend sealing the furnace slot.

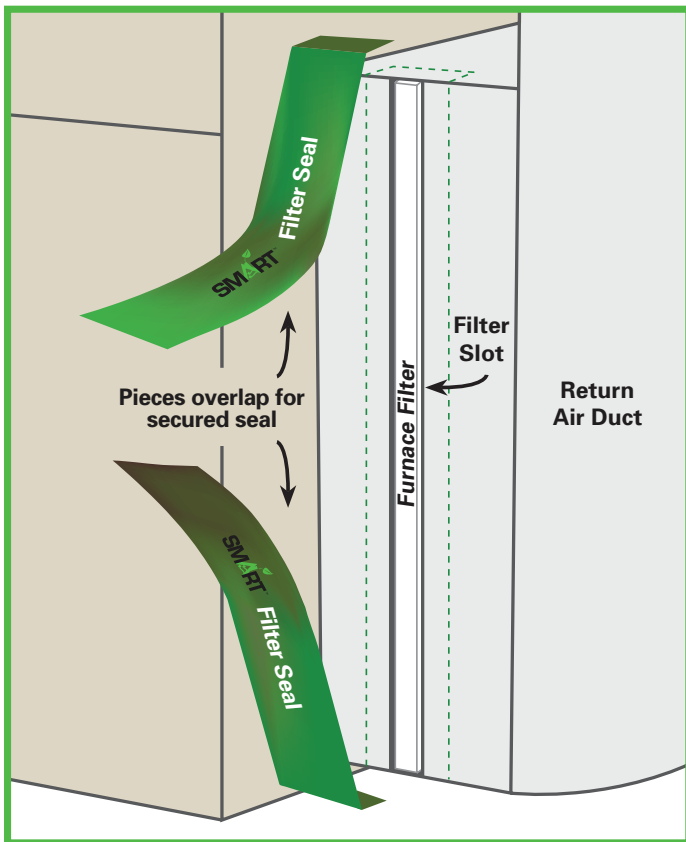

Why you should choose the SMART Filter Seal

- One size fits up to 25" filter slot openings – easy to install
- Used in both residential and commercial applications
- Can be used as a marketing tool – factory printed with the company name, logo and phone number. Contact factory for details.
- Sealing the filter box is required by the International Energy Conservation Code (IECC). Section 403.2.2 states; "Sealing all ducts, air handlers, filter boxes, and building cavities used as ducts shall be sealed"
- Helps achieve a net zero energy building
- Made of strong but flexible plastic – long lasting
- Both the U.S. Department of Energy and Energy Star recommend sealing the filter slot
- Made in the USA

Why Homeowners like the SMART Filter Seal

- Prevents unconditioned air from bypassing the filter
- Pays for itself quickly in energy savings
- Increases the life of the furnace/air conditioner by keeping dirt and debris out
- Keeps dust and pollutants out thus improving indoor air quality

SMART Filter Seal

part number 2000153

SMART Filter Seals standard furnace air filter slots. Overlapping two-piece design fits up to 25" filters. Built-in magnetic fasteners hold Filter Seal in place on metal duct. Place one section over open filter slot, place second section, overlapping first section, and trim if needed.

FASTER. EASIER. LESS EXPENSIVE.

SMART Filter Seal is the smart choice for sealing air filter slots.

Customize your own SMART Filter Seal with your company logo and contact information to increase your customer awareness by advertising your brand for repeat business on all installations.
