

MultiBox™ System

QUALITY INNOVATION PERFORMANCE

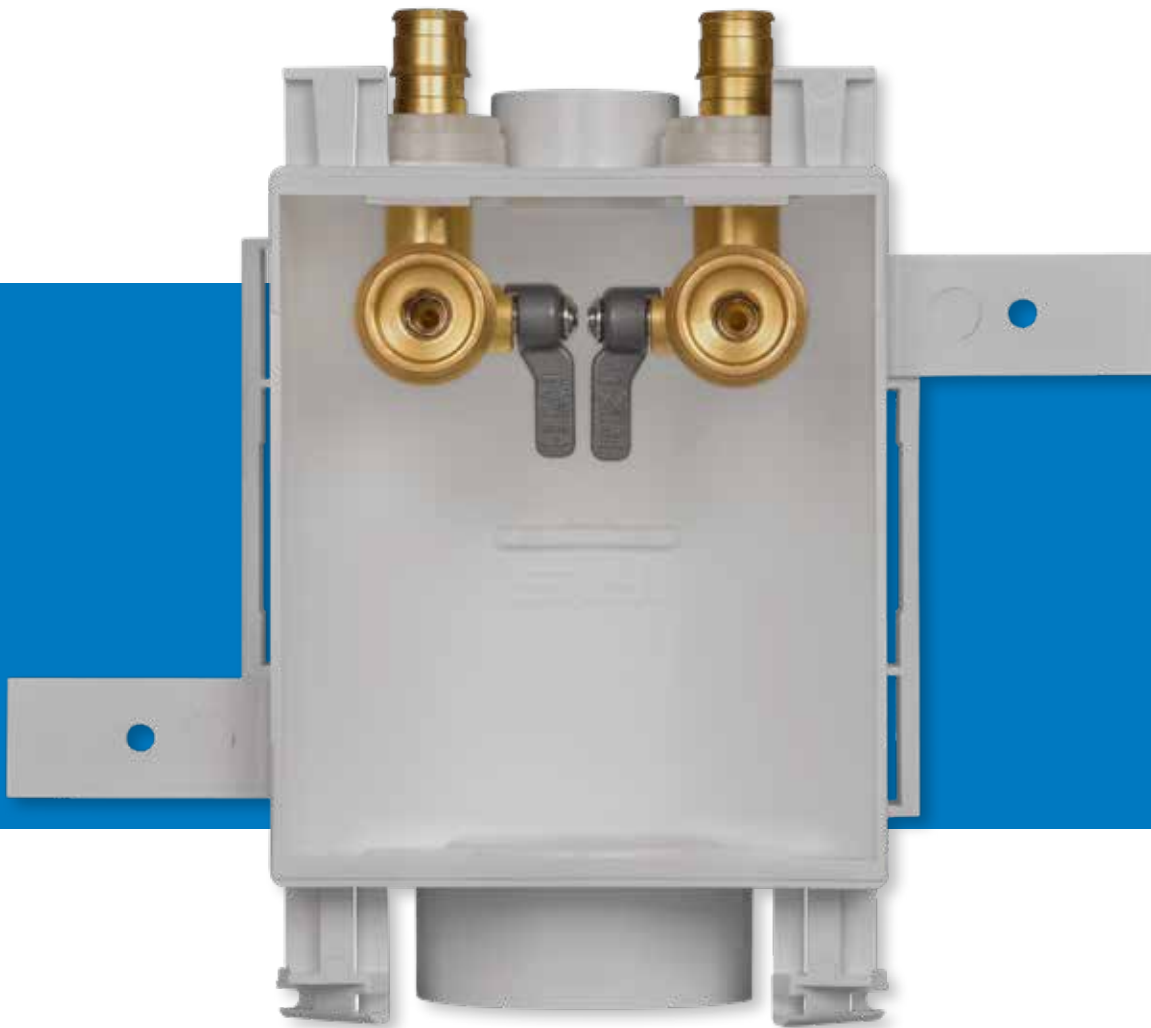

The Plumbing Professional can depend on the industry's widest offering of Outlet Boxes from Water-Tite to meet all their installation needs. Water-Tite brought you the first recessed, plastic Washing Machine Outlet Box, and now we're bringing you the most versatile and strongest box ever. The MultiBox™ can be installed in virtually any application to recess a plumbing connection.

Beginning in 1969, Water-Tite standardized laundry connections... then in 1978, Water-Tite revolutionized Ice Maker connections. Water-Tite's culture of innovation has continued to bring the professional plumber outlet boxes that help them do a better job, faster.

The Water-Tite brand has a 45 year legacy of innovation with efficiency of the plumber foremost in mind. Save time and money with products like the MultiBox, DU-ALL™ Washing Machine Outlet Box, 3N1® Roof Flashing, and Single Shot® clamp. Water-Tite is dedicated to continuing this tradition of innovation by bringing smart products to today's professional plumber.

Water-Tite's MultiBox™ System can be installed in multiple configurations, with numerous valve options, for the most stringent design specifications. As a single-box washing machine outlet box system, with top mount valves, to a three-box washing machine system including a Studor® Air Admittance Valve, the MultiBox is the most versatile and robust choice of contractors. The MultiBox™ Washing Machine Outlet Box can conveniently house both valves and a drain in the same box. Plus, for a system with separate valve and drain boxes, the MultiBox™ valve box can be piped to the DWV system to capture any hose leaks, maintaining an original purpose for recessed outlet boxes.

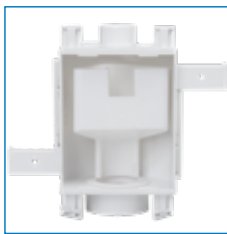

Applications

Washing Machine

Auxiliary Drain

Condensate Drain Adapter

Water Softener Drain Adapter

Ice Maker

Studor® Air Admittance Valve

Gas Outlet

Angle Stop

Toilet Connection

Dishwasher/
Commercial
Ice Maker

Kitchen Box

Fire Rated Options

Installation Configurations

On Stud

Straddle Stud

Inside Stud Bay

Between Studs
(valve box piped to drain box to
capture possible hose leaks—optional)

Corner

Three Box System

Features

Integrated Mounting Options:

Integrated Mounting Flanges

Mounting flanges — no clips to lose or hassle with

Stabilizer Bar Slots

Top & bottom stabilizer bar slots

Nail Slots for Extra Support

Nail slots

Attaching Multiple Boxes:

Hold boxes at an angle

Slide integrated mounting flanges into opposing box

Twist to secure

Knock-outs:

○ Nine valve knock-outs

○ Two drain knock-outs

- 2" in standard washing machine drain
- Optional 1" to pipe valve box to DWV system

Integrated drain knock-outs will not fall down the drain after DWV test

Raised Drip Guard:

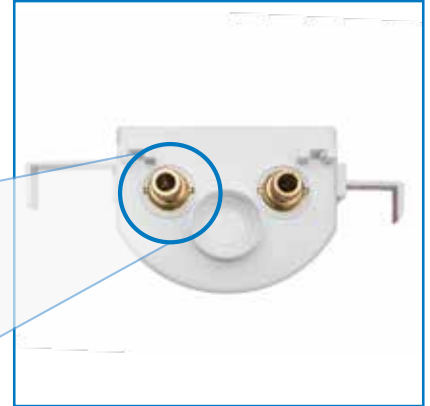

Raised drip guard captures hose leaks inside the box and sends them down the drain

Raised Drip Guards on Top and Bottom

Valves

- Anti-rotational design; box and valves have integrated locking feature
- Forged brass valve bodies; provides superior strength and durability
- Easy to operate quarter-turn ball valve
- Valve options include: Standard and Hammer Arrestor for Washing Machine and Ice Maker, and Angle Stop Valves
- Valve connection options include: Sweat, CPVC, PEX, Wirsbo® and REHAU EVERLOC+®
- Boxes come with valves factory installed

Faceplates

- Available in Standard, Louvered or Solid
- Standard faceplate is available in an extra large, deep option
- Extra deep faceplate comes standard with Kitchen Box, Angle Stop and Dishwasher Boxes
- All faceplates fit any box configuration, including fire-rated
- All faceplates fit up to two sheets of 5/8" drywall
- Separate adapter NOT required for 2-hour fire wall

Standard Faceplate

Includes cable tie bosses to secure drain hose

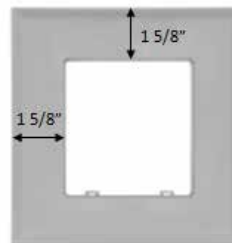

Louvered Faceplate

Ideal for Air Admittance Valves

Solid Faceplate

Ideal for main shut-off valves

Extra Large, Deep Faceplate

Trim flange provides extra 1" coverage for potential cabinet rough cuts

Top View

Three optional break lines allow for custom fit to cabinetry

Accessories

Choose from two auxiliary drain adapters. Each is one piece, provides a 1" air gap and can be used with the washing machine drain hose.

Water Softener Drain Adapter

Contains integral pipe retainer, can accommodate one drain line up to 7GPM

Condensate Drain Adapter

Snaps into drain box, can accommodate up to three auxiliary drain lines from low volume discharge appliances

Adjustable Stabilizer Bar

Expands from 10" to 16"

Adjustable stabilizer bar included with all contractor packs of Washing Machine Outlet Boxes and Ice Maker Outlet Boxes.
