

## Barrel-Type Drift Pin, 11/16-Inch

Klein Tools Barrel-Type Drift Pins are manufactured for durability. They are machined from quality alloy steel, which is forged and heat-treated for strength. The tough, drop-forged steel will properly end-pein in use.

### Specifications

|                 |                  |                 |                 |
|-----------------|------------------|-----------------|-----------------|
| Type:           | Barrel           | Overall Length: | 7.5" (19.1 cm)  |
| Material:       | 8640 Steel       | Diameter:       | 0.688" (1.8 cm) |
| Point Diameter: | 0.313" (7.95 mm) | Weight:         | 9.6 oz (272 g)  |
