LEAD-FREE FORGED STEEL DIELECTRIC UNION (2-1/2" TO 4")

T-571NL (Large Diameter)

Lead-free design is suitable for all no-lead potable water installations in full compliance of all lead-free plumbing laws.

High-strength, galvanized cast iron construction make them ideal for commercial and industrial applications.

Designed to reduce stray current and galvanic corrosion where two dissimilar metals are joined.

Self-aligning, non-conductive elastomer gasket and thermoplastic insert create a positive seal and complete isolation between the tubing and piping ends.

Optional high-temperature gaskets and inserts are available for steam and hydronic heating applications.

Available in sizes 2-1/2" to 4"* in the FIP x sweat configuration.

**Note: Sizes 1/2" to 2" are of forged steel body construction.
