Offset Ratcheting Wrench

RRW6

Two-way ratcheting action with an effortless handle-swing motion

This versatile, compact, and lightweight Offset Ratcheting Wrench provides easy fastener access and fast, two-way ratcheting action with an effortless handle-swing motion. Finger switches are easily accessible to change ratcheting direction. It is ideal for installing or removing fasteners at chainlink fence hook-up points. A 25 degree offset design maintains clearance between fingers and chainlink fabric when fastening fence hardware such as tension bands, brace bands, and rail end cups. The 12-point box heads, at each end of the wrench, grasp standard U.S. 1/2 inch and 9/16 inch hex fasteners from multiple angles. The box head keeps wrench in contact with the fastener for superior control. Through-hole socket openings accommodate any fastener length! Designed for long service life, this Offset Ratcheting Box Wrench exceeds ASME minimum torque requirements. Hardened socket openings and protective nickel chrome plating compliment a solid plastic core sandwiched between the tool's 1/8 inch (3.18 mm) steel plates to ensure that the ratcheting mechanism will function in harsh cold, wet, or dirty working conditions.

Catalog Number	Description	12 Pt. Hex Sockets	Nominal Length	Net Weight
RRW6	Ratcheting Wrench, Offset	1/2 and 9/16 in.	6.75 in. (172 mm)	5 oz. (142 g)

Multi-Track Pliers

Multiple slip joint pliers are ideal for use on conduit, pipe and cable connections.

- **Undercut Tongue & Groove Adjustment** will not slip! Jaws are held securely in selected position.
- **PermaLock® Fastener** eliminates nut & bolt failure.
- **Heat Treated Right-Angle Teeth** grip better, last longer.
- **No Pinch Point.** Lower jaw and reinforcing rib prevent handles from touching.
- **Long, Vinyl-Cushioned Handles** give powerful leverage with a gentle spread for easy one-hand operation.

Thin Design,
Tempered Steel
Halves allow access
in confined spaces
where other pliers &
wrenches won't go.

STRAIGHT JAW

RUGGED V-JAW

V-shaped jaw creates more points of contact on pipe and round stock for stronger bite and more control.

MT12
