CAST IRON BACKWATER VALVE WITH PVC FLAPPER AND NICKEL BRONZE ACCESS COVER

Specification: MIFAB® Series BV1200-R lacquered cast iron backwater valve with no hub inlet and outlet, gasketed bolted cover, automatic pvc flapper type backwater valve, lacquered cast iron extension to receive pipe extension (by others) and nickel bronze scoriated access cover.

Function: Used in main branch or sewer lines to prevent backflow from the sewers. Full opening access through cover to the flapper assembly for repair and maintenance. Cast iron extension piece and nickel bronze floor access cover provide means with an extension pipe (by others) to raise the access cover to whatever height is required.

Note: Do not use for pressurized applications; for gravity flow only. Backflow protection is prevented when the valve is obstructed by debris or sludge; clean regularly. ructed by debris or sludge; clean regularly.

MODEL NUMBER	PIPE SIZE	LENGTH "A"
