

Specification: MIFAB® Series MI-SOLID-S lacquered cast iron solids interceptor with internal stainless steel perforated sediment bucket removable through top. Interceptor complete with 2" F.I.P. inlet and outlet and gasketed lid secured with single handle.

Function: Used in dental offices, jewellery stores and other areas that require interception of solids, sand, plaster, chips or valuables from lavatory or sink waste lines. Interceptor is cleaned by removing top cover and accessing internal stainless steel sediment bucket. Typically installed underneath the sink on the floor.

Note: Minimum of 9 1/4" is required above the MI-SOLID-S for easy removal of sediment bucket.

SUFFIX	OPTIONAL VARIATIONS:	SUFFIX	SUFFIX
-11	Acid resistant epoxy coating	-SS	Stainless steel body and lid (Type 304)
-13	All galvanized	-SSB	Replacement stainless steel sediment bucket
-BA	Buy American Act compliant product	-SQ	Fabricated, 10 gauge steel, powder epoxy coated solids interceptor
-CP	Chrome plated	-SSM	Stainless steel mesh screen over sediment bucket
		Specify	Custom sediment bucket (specify material and perforation size)
