R100-M

**CAST IRON ROOF DRAIN
WITH ALUMINUM DOME**

Specification: MIFAB Series R100-M lacquered cast iron roof drain with anchor flange, cast iron waterproofing membrane clamp ring with integral gravel stop, and standard self-locking metal dome strainer with a free area of 43 square inches.

Function: Used in any type of flat roofs and gutters. 8" diameter body is ideal for applications with limited space. Dome provides for efficient drainage of rainwater and prevents debris from entering the drain line. Anchor flange and membrane clamp with tongue in groove design provides for secure grip of membrane and roof flashing materials.
