The PVC DWV 45-degree double wye features all hub connections and allows for a connection to be made in continuous pipeline and branch out to different directions. Please refer to NIBCO technical data sheets and catalogs for engineering and installation information. Polyvinyl chloride (PVC) is the most frequently specified of all thermoplastic materials because of its light weight, durability, and cost-effectiveness. PVC DWV is easy to install and is joined by solvent cementing or threading.
