NOTES

Stk It is recommended that stock be maintained for this part.

N/A Not Applicable

- 1 This compressor should be replaced with the designated Copleland scroll (55-102045 series) and the specified Retrofit Kit. USE OF THE RETROFIT KIT IS REQUIRED WHEN PERFORMING THIS REPLACEMENT. Failure to use the kit will greatly increase the likelihood of future compressor failure and will void the compressor warranty.
- 2 The reversing valve specified for 030, 036, 042, 048 and 060 models may be different than the one originally supplied with the equipment. The use of the specified valve is recommended for improved shifting performance.
- 3 This low pressure switch should only be used with units manufactured after the effective date shown. It is not compatible with the Defrost Control Board used on units manufactured before this date.

DISCLAIMER: This document is intended to provide general replacement parts information to aid qualified service personnel in the repair of these models. The complete Model and Serial Number of the unit under repair should be specified when selecting and ordering replacement parts. Specifications and illustrations are subject to change without notice. Document 92-42805-13PJL supersedes all previous parts lists for these models. See <http://www.rheempartslists.net/92-42805-13PJL> for the latest revision of this document. The manufacturer assumes no obligation for errors or omissions. Service personnel must verify the proper and safe operation of equipment after the replacement of any original components.
