Beveling Dies

For beveling pipe prior to welding. A set of beveling dies consists of three guide segments and one cutting segment.

Catalog No.	Description	Pipe Size		Used in Die Head	Weight	
		in.	in.		lb.	kg
52192	37½° Bevel Die Set	½-¾	12-20	Universal	1	0.5
50960	37½° Bevel Die Set	1-2	25-50	Universal	1	0.5
52202	45° Bevel Die Set	½-¾	12-20	Universal	1	0.5
50965	45° Bevel Die Set	1-2	25-50	Universal	1	0.5

Cut Grooving Dies

To cut groove pipe for mechanical type couplings, consult chart for sizes and die head information.

Catalog No.	Description	Pipe Size		Used in Die Head	Weight	
		in.	in.		lb.	kg
52217	Grooving Die Set	½-¾	12-20	Universal	1	0.5
50985	Grooving Die Set	1-2	25-50	Universal	1	0.5

Note: 2 ½ - 4 Beveling Dies are available for the No. 1224 threading Machine. See accessories for No. 1224.

Note: Universal Dies fit all Universal Die Heads.

See page 4.12

Keep dies used for stainless steel separate from those used with black iron to avoid material contamination.
