Notes

Install this product according to the installation instructions.

Product is designed to be used with a single-hole mixer valve with an escutcheon cover not to exceed 7-3/4" (197 mm) in width.

Studs should be positioned roughly as shown.

Bath cannot be installed without the wall surround.

Attach grab bars at the specified backerboard locations only.

Width shifts from 60" (1524 mm) at front to 59-3/8" (1508 mm) at back. Use 1/4" (6 mm) furring strips at back for drywall over nailing-in flange installation.

ADA adaptable when grab bars and seat are installed per the specific requirements of these regulations.

For ADA compliance, select a mixer valve location that will not interfere with control wall grab bars.
