IMPORTANT ORDERING & INSTALLATION INFORMATION

- Before ordering or installing, please consider future access to equipment.
- Add proper bedding compound to fully level and support bottom of tub.
- When equipped with an air bath package, pre-levleled foam base or frame system, overall tub height is increased by approx. 2-3" and is designed to install on a flat, level subfloor.
- Radiance placed on airbath floor will affect placement of air jets.
- System components may extend beyond the perimeter of deck.
- Please measure tub **on-site** before building tub decking.
- Advise MTI when planning to use a glass enclosure. Relocation of controls may be necessary.
- Suction and control locations may vary.
- All tubs are compliant with ASTM C 1028-07 coefficient of friction. DoloMatte meets ANSI A137.1/A326.3 coefficient of friction and AS HB198:2014 slip tests.
