

Chromatherapy
Underwater LED Lighting

Chromatherapy Underwater LED Lighting

For centuries, light and color have been recognized as having an affect on human bio-rhythms and life equilibrium. The therapeutic use of different colors of light, or chromatherapy, has been determined to have a positive impact on overall health and well-being.

- 2 digitally controlled LEDs included. Up to 6 additional lights may be added (for a total of 8).
- Control pad allows selection of any of these individual colors:
 - aqua
 - blue
 - magenta
 - red
 - orange
 - green
 - yellow
- Aqua-Blue-Green mode gently transitions through the 3 colors.
- Rainbow mode cycles through all colors.

Chromatherapy with 2 LED light clusters (LE) **\$840**

Standard placement of LED lights shown below for center and end drain tubs. Actual locations of LED lights may vary slightly due to tub shape, hydrotherapy components and other options. A drawing must be submitted with order to specify alternate placement. MTI will factory-install LED lights as close as possible to specified location.
