Standard Equipment

BOILER

Stainless Steel Heat Exchanger
30 PSI ASME Relief Valve
Drain Valve
Stainless Steel Burner
Direct Spark Ignition
Variable Speed Blower Assembly
Venturi Mixing System with Air Silencer
Negative Pressure Regulated Gas Valve
50 VA Transformer
Dual Scale Temp. & Pressure Gauge
Outlet Water Temp. Sensor
Inlet Water Temp. Sensor
Flue Gas Temp. Sensor
Outdoor Temp. Sensor
Sentinel X100 Inhibitor and Test Kit

CONTROL MODULE

3.5" LCD Display
Central Heat Circulator Control
DHW Circulator Control w/ Priority
Ignition Control
High Limit & Modulating Temp. Control
Outdoor Reset
Freeze Protection
Circulator Exercising

COMPLETE JACKET ASSEMBLY WITH

Fully Removable Jacket Front Door
Mounting Bracket
Condensate Trap
Propane Conversion Orifice

Multiple Venting Options:

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

Standard Equipment

Boiler

Stainless steel fire-tube heat exchanger Floor standing or wall-mount option with kit Natural or LP Gas
Negative regulated combustion
10 to 1 turndown ratio
Boiler circulator
Propane conversion kit
Low water cut-off
Sentinel X100 Inhibitor and Test Kit
Low NOx < 20 PPM

Control features

Easy Set-up with Control Wizard
Zone and/or Priority Based Control
Three Thermostat Inputs
Outdoor reset for each priority
Rate adjustable per priority
0-10V Input (modulation or setpoint)
Four total Outputs
• 1 dedicated boiler circulator output
• 3 additional outputs can be used with circulators, dampers, or system aux
Aux Inputs – Flow Switch or End Switch
Aux Outputs – System Pump or Damper
Modbus Connectivity
Additional heat demand contact

Boiler Circulators

1-1/4" & 1-1/2" flanges (220/299) Taco 0014
1-1/4" & 1-1/2" flanges (399) Taco 0013

Multiple Boiler Features

Up to 8 Boilers, Multiple System
Series, Parallel, or Smart Sequencing
Lead Boiler Rotation
2 Network Priorities per Boiler
2 Local Priorities per Boiler
24 Zone Inputs and Outputs with 8 total cascaded boilers
Aux Inputs – Flow Switch or End Switch
System Aux Outputs – System Pump or Damper

Jacket Assembly

Easy maintenance with top access panel
Fully Removable Jacket Front Door
Adjustable Boiler Legs
On/Off Power Switch
Line Voltage Service Receptacle
Mounting Bracket ready for wall-mount kit

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

Outdoor Reset Kit	381-356-586

Installation Flexibility with Multiple Venting Options

Standard Equipment

Factory Tested
Insulated Extended Steel Jacket
Cast Iron Sections With Built-In Air Separator
Stainless Steel Secondary Heat Exchanger With Air Separator
Steel Base
Control Module With Indicator Lights
Blower Assembly with Observation Port
Gas/Air Manifold Assembly
Gas/Air Orifice Plate for Natural Gas (separate plate furnished for conversion to propane)
Stainless Steel Burner Cone and Ring Assembly
Negative Regulation Gas Valve
Hot Surface Ignition System
Air Pressure Switch
System Circulator*
Built-in-Bypass Circulator System with Sensor For Temperature Control*
Condensate Drain Trap
Sidewall Vent Termination Kit**
40VA Transformer
Electrical Junction Box
30 PSI ASME Relief Valve (Boiler sections & Second Heat Exchanger Tested for 50 PSI Working Pressure)
Water Temperature Limit Switch
Section Block Temperature Limit Switch
Combination Pressure-Temperature Gauge
Drain Valve
Flue Thermal Fuse
Water Treatment - Inhibitor & Test Kit

*Circulators supplied with boiler cannot be removed and cannot be used as a zone circulator in multiple boiler systems.

**Includes Inside and Outside Plates, Vent Cap and Hardware.

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

2 YR Parts Warranty

Advanced Control Sytem

7" Color LCD Touchscreen Display
Labeled Terminal Blocks for Field Terminations
Ignition Control
High Limit & Modulating Temp. Control
Ability to Control any Combination of Three Circulators
Alarm Control Functionality
Preset Operating Parameters include Typical Heating Systems
Two Adjustable Boiler Priorities
Multiple Boiler Functionality with Lead/Lag Capability
Lead Boiler Rotation
Low Water Protection
Manual Reset
Outdoor Reset
Warm Weather Shutdown
Freeze Protection
Mod Bus Standard; BacNet Optional

Complete Jacket Assembly with:

Fully Removable Jacket
On/Off Power Switch
Manual Reset Push Button
Condensate Tray with Drain Tee Assembly

CSD-1 Compliant

Manual Reset LWCO
Manual Reset High & Low Gas Pressure Switches
Manual Reset High Limit
UL 353 Certified Control

SlimFit - SF1000L/SF1500L

Standard Equipment

Chimney Vented (CV) Package:
 Three-pass Cast Iron Heat Exchanger
 Reversible Swing-away Bruner Door
 Silicone coated Fiberglass Sealing Rope
 Boiler Drain
 30 PSI ASME Relief Valve
 Hinged Control Pod
 Beckett NX Burner with Exclusive Cover
 "New" Riello CV Burners
 "New" Beckett Std. AFG CV Burner
 Temperature/Pressure Gauge
 Factory-wired Terminal Strips with Labeled Wires
 Honeywell L7248 Electronic Aquastat
 Quick Disconnect Burner Plug
 Barometric Damper
 Circulator (Taco 007)
 Service Switch

Direct Vent (DV) Package:
 Same as Chimney Vented (CV) package plus
 Beckett NX Oil Burner DV (in lieu of standard NX CV Burner)
 Vent Termination Kit
 15' Flexible Insulated Vent Pipe
 "New" Riello Direct Vent Burner

Optional AFM Kit Features:
 Low Temperature Mixing
 Setpoint Operation
 DHW Priority
 Outdoor Reset
 DWH Post Purge
 Stage Fire Two Boilers
 Minimum Boiler Setting
 Automatic Boiler Differential
 Boiler Protection
 Warm Weather Shutdown
 Freeze Protection
 Mixing Device Exercise
 Pump Exercise
 Test Sequence
 LCD Remote Display
 Run Hours Log
 Plug-In Terminals

- For elevations between 2,000 and 4,500 ft above sea level, rating should be reduced by 10% and boiler should be designated with a prefix "A". Example: (ALGB-6-W)
- Propane fired boilers should be designated with suffix "P". Example: (LGBP-6-W)
- Insert S (for steam), W (for water)
- Net IBR steam ratings are based on the following piping and pick-up allowance(s)
LGB-6 through LGB-12 - 1.333 LGB-13 - 1.332 LGB-14 - 1.322 LGB-15 - 1.312 LGB-16 - 1.304
LGB-17 - 1.297 LGB-18 - 1.292 LGB-19 - 1.289 LGB-20 through LGB-23 - 1.288
- List prices based upon an available natural gas supply pressure of at least 5.0 inches water column at the inlet to the boiler gas control components. For other gas pressures consult Customer Services Department.
- Net IBR water ratings are based on piping and pick-up allowance - all sizes - 1.15
- Twenty foot (20') chimney height may be used based on using a six foot (6') length of connector or breeching of the size shown from the nearest draft hood outlet to the chimney or vent with not more than one (1) standard sloping-type 90° elbow. If individual vertical vents are to be employed each vent diameter should be the same size as in the respective draft hood outlet and the height may be reduced to five feet (5') measured above the draft hood outlet.

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

Standard Equipment

Cast Iron Sections
Aluminized Steel Collector Hood(s) and Draft Hood(s)
Control Transformer-120/24 Volt
Junction Box
Factory-Packaged Burner-Base Assembly
Gas Distribution Manifolds
Aluminized Steel Base Panels
High-Temperature Insulation Board Panels
High Gas Pressure Switch (LGB-21 through LGB-23 only)
Wiring Harness - Junction Box and Prewired Flexible Conduit
Flame Guardian® UCS Flame Rectification

Electronic Control System for Each Base Assembly: Prewired Control Module with Terminal Block and Two Ignition Control Modules with Integral Spark Generators, Intermittent Electronic Ignition Pilot System, Electronically Supervised Safety Pilot Burner with Combination Ignition Electrode and Flame Rod, Main Flame Sensor Rod, Ignition/Sensor Cable

Water:

Combination Operating and High Limit Temperature Control (for LGB-6 through 20 only)
Operating Temperature Control (LGB-21 through 23 only)
High Limit Temperature Control (LGB-21 through 23 only)
Combination Pressure/Temperature Gauge
30 P.S.I. ASME Relief Valve-Side Outlet
Built-in Air Eliminator in End Sections
80 PSI Relief Available

Steam:

Operating Pressure Control
High Limit Pressure Control
Compound Pressure-Vacuum Gauge
Gauge Cocks, Glass, and Guards
15 P.S.I. ASME Relief Valve-Side Outlet
Float Type Low-Water Cutoff, No.61
Wiring Harness-Junction Box and Prewired Flexible Conduit

LGB Series 2 - Control Panels

Guarded Status Panel (Required in certain Provinces where applicable by code)

DESCRIPTION
GSP-S Steam Only for models LGB-11-S or LGB-12-S
GSP-S Steam Only for models LGB-13-S through LGB-23-S

ADDITIONAL BOILER EQUIPMENT

DESCRIPTION	MODEL
Propane Adder For LGB Boiler	LGB-4 through LGB-12 LGB-13 through LGB-23
Factory assembled sections	LGB-6 through LGB-23
Stage firing or Low-High-Low firing	

NOTE: Ontario Steam Boilers with 30 H.P. & Up Require Guarded Plant. Manitoba Steam Boilers 50 H.P. & Up May Require Special Guarded Plant. Consult Customer Service.

NOTE: GSP-W Control Panels Are Available For Hot Water Boilers. Standard Lights Include Burner On, Flame Failure, Hi-Temp & Low Water. Alarm Buzzer with Silencer. Dry Contact for Remote Alarm. Push to Test & Reset Buttons.

NOTE: Special Control Panels are available for both Water/ Steam Boiler applications. Call Customer Service for Pricing.

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

(1) Insert 'BL' for light oil, 'BGL' for combination gas-light oil, 'BG' for gas.

(2) Insert 'W' for water, or 'S' for steam.

(3) Gross I-B-R ratings have been determined under the I-B-R provision governing forced draft boiler-burner units.

(4) Net I-B-R- Ratings are based on net installed radiation of sufficient quantity for the requirements of the building and nothing need be added for normal piping and pick-up. Water ratings are based on a piping and pick-up allowance of 1.15. Steam ratings are based on the following allowances: 380 thru 1180 - 1.333; 1280 - 1.321

An additional allowance should be made for gravity hot water systems or for unusual piping and pick-up loads.

(5) Based on average water temperature of 170°F in radiators.

Standard Equipment

Cast Iron Sections
Flame Retention Burner
Burner Mounting Plate with refractory
Flue Collar with built-in breeching damper
Observation Port Front and Back Section
Cleanout Plates
Top or Rear Outlet (please specify)
Flue Brush

Steam Boiler:

A.S.M.E. Safety Valve 15 P.S.I.
Low and High Limit Control
Steam Gauge
Gauge Glass
Gauge Glass Cocks
Gauge Guards
Low Water Cut-Off

Water Boiler:

A.S.M.E. Relief Valve 30 P. S. I.
Dual High Limit and Operating Control
Combination pressure-temperature Gauge
Built-in air eliminator

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

- (1) Gross ratings have been determined and certified to efficiency procedures in ANSI Z21
- (2) Net Ratings are based on net installed radiation of sufficient quantity for the requirements of the building and nothing need be added for normal piping and pick-up. Water ratings are based on a piping and pick-up allowance of 1.15. An additional allowance should be made for gravity hot water systems or for unusual piping and pick-up loads.
- (3) Based on average water temperature of 170 ° F in radiators.

Standard Equipment

Cast Iron Sections
High Tech Insulation & Jacket Set
Flame Retention Burner
Burner Mounting Plate with refractory
Flue Collar with built-in breeching damper
Observation Port Front and Back Section
Cleanout Plates
Top or Rear Outlet (please specify) (80c Only)
Flue Brush
A.S.M.E. Relief Valve 30 P. S. I.
Dual High Limit and Operating Control
Combination pressure-temperature Gauge
Built-in air eliminator
Nipple and 5" and 6" reducing coupling
(CS3000-CS4500 only)
Flue Baffles (88c Only)

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

OPTIONAL EQUIPMENT ON ALL REILLO BURNERS
(Max 4 Lights, Relays, ect. Consult Weil Mclain Customer Service)

DESCRIPTION
LIGHTS (NON ALARM FUNCTION)
CS750-CS1300 Oil Burners
CS300-CS1300 Gas and Gas/ Oil Burners, Power On
CS800-CS3500 Oil Burners
CS3700-CS4500 Oil and all Gas and Gas/ Oil burners
Power On & Fuel on light standard
LIGHTS (ALARM FUNCTION)
S.P.S.T. Relay for alarm function add light above and
3" Alarm Bell mounted and wired on burner
Propane Gas (Instead of Natural Gas)

OPTIONAL ADDITIONAL BOILER EQUIPMENT

3. Does Not Include Controller.
4. 115-60-1 control current must be available for all units.
5. Fuel ignition - Gas - Proven gas pilot, oil - Direct Spark Gas/Oil Burner Only

List Price Each

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

Cobalt Series - Control Package Adder

BOILER NUMBER	NUMBER OF BOILERS
CS300 - CS 4500	1 Boiler
CS300 - CS 4500	2 Boilers
CS300 - CS 4500	3 Boilers
CS300 - CS 4500	4 Boilers

PGM STATUS PANEL

PANEL INCLUDES:

- PANEL FOR WALL MOUNT NEAR BOILER
- STD POWER ON LIGHT & SWITCH. BURNER ON LIGHT. ADDITIONAL LIGHT & RELAY FOR LO-WATER, HI-TEMP & FLAME FAILURE
- ALARM SILENCING SWITCH & DRY CONTACT FOR REMOTE ALARM

WRS CONTROL PANEL

PANEL INCLUDES:

- ON/OFF CONTROL FOR UPTO 3 ON/OFF BOILERS WITH INDOOR/ OUTDOOR WITH LEAD/LAG. BURNER ON LIGHT.
- LO-HI-LO CONTROL FOR UPTO 4 TWO STAGE BOILERS WITH INDOOR/ OUTDOOR, LEAD/LAG, ECT
- MODULATION CONTROL FOR UPTO 4 MODULATING BOILERS WITH INDOOR/ OUTDOOR, LEAD/LAG, ECT
- AQUASTATS INCLUDED FOR ALL ABOVE CONTROLS

For Additional Lights & Relays Consult Weil Mclain Customer Service

NOTE: Please Add 1 Status Panel & 1 Control Panel to Complete Package
Package includes 1 Custom Status Panel with All Lights, Relays, Additional Contacts And Switches
With Alarm & 1 Control For Staging Indoor/ Outdoor Reset, Lead/ Lag & Rotatation of Boilers ECT.

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

- (1) Insert 'BL' for light oil, 'BG' For Gas, 'BGL' for combination gas-light oil.
- (2) Insert 'W' for water, or 'S' for steam.
- (3) Gross I-B-R- Ratings have been determined under the I-B-R provisions governing forced draft boiler-burner units.
- (4) Net I-B-R- Ratings are based on the following piping and pick-up allowances: Water Ratings - 1.15;
Steam Ratings - 1.288. An additional allowance should be made for unusual piping and pick-up loads.
- (5) Based upon average water temperature of 170 °F. in radiators.

OPTIONAL EQUIPMENT

DESCRIPTION
Factory Assembled Sections (Insert "FA", eg FA694-W)
Tankless Heater Openings (With Cover Plate)
94T Intermediate Section in place of Standard Section
Guarded Status Panels must be used with factory standard burners on all boilers (Required in certain Provinces where applicable by code)

Standard Equipment

Weil-McLain Flame Retention Burner for Light Oil, Gas-Light Oil, or Gas
Burner Mounting Plate and Refractory with Openings for Burner, Controls and Observation Port.
Triple-Pass Cast Iron Sections
Front Cleanout Doors and Wing Nuts
Front Cleanout Plates and Wing Nuts
Back Access Door with Observation Port
Weil-McLain Supply Elbow(s) or Top Supply Outlet(s) for water and steam boilers.
(Built-in Eliminator for water boiler)
Flanged Flue Collar with built-in Breeching Damper
Two 3 Inch Close Nipples and Caps for Washout Tappings on the Front Section

Water:

A.S.M.E. Safety Relief Valve 30 P.S.I.
Combination Pressure-Temperature Gauge
Combination High Limit and Low Limit Control

Steam:

A.S.M.E. Safety Valve(s) (Side Outlets) 15 P.S.I.
Steam Pressure Gauge, Syphon, Gauge Glass, Gauge Cocks and Gauge Guards
Low Limit and High Limit Pressure Controls
Low Water Cut-Off

Standard Equipment

Thermostatic Mixing Valve
3/4" Temperature & Pressure Valve
Drain Valve
Taco 3 Speed Circulator (selector switch)
Two 1" 316L Stainless Steel Flexible Connection Hoses
Leveling Legs
Two Tank Temperature Sensors
Wire Harness & Plugs For Quick Boiler Control Connection
18.2 Gallon 316L Stainless Steel Tank
1 1/4" Diameter 304 Stainless Steel Coil

1. Aqua logic water heater, tank and enclosure
Tank can be oriented with DHW inlet/outlet connection on right or rotated 180 Degrees to place DHW connection on the left.

- Aqua logic piping access cover
- Boiler water RETURN connection (to boiler) (1" M-NPT)
- Boiler water SUPPLY connection (from boiler) (1" M-NPT)
- Top Tank Temperature Sensor
- T&P relief valve tapping (3/4" F-NPT)
- Lower tank temperature sensor
- DHW inlet connection (3/4" M-NPT)
- DHW outlet connection (3/4" M-NPT)
- Mixing valve (Honeywell AMX300T)
- Mixing valve return fitting
- Cold water connection to mixing valve
- Leveling Legs

MAXI - FLO

POOL HEAT EXCHANGERS

EXCHANGER MODEL NUMBER	DIAMETER INCHES	HEIGHT INCHES	BOILER OUTPUT MBH	SHP WGT	PART NUMBER
WMPH - 95	4 1/2	16 1/2	95	6	636-000-030
WMPH - 135	5 1/8	13 1/2	135	8	636-000-031
WMPH - 200	5 1/8	18 3/4	200	11	636-000-032
WMPH - 260	5 1/8	23 3/4	260	14	636-000-033
WMPH - 400	5 1/8	41 3/4	400	24	636-000-034

SIZING MAXI-FLO HEAT EXCHANGERS FOR POOL APPLICATIONS:

CALCULATION:

STEP 1: Determine Heat up rate.

The Heat up rate is 1°F for extended use pools (summer season),
2°F is used for periodic use pools.

STEP 2: Determine Pool Capacity.

Rectangular Pools = 7.5 x Length x Width x Depth (in feet)

Circular Pools = 5.9 x Length x Width x Depth (in feet)

STEP 3: Select Maxi-Flo Heat Exchanger From Chart

Found in Maxi-flo manual. Select Maxi-flo heat exchanger and
recommended boiler output based on selected heat up rate.

STEP 4: Check Heat Loss to Surroundings.

Heat Loss (in Btu/hr) =

12 x Pool Surface Area x (Desired Pool Temp - Coldest Average Air Temp during use)

Boiler Output in Step 3 must be greater then heat loss to surroundings.

EXAMPLE:

Determine the boiler output and heat exchanger required for a 30 foot long by 16 foot wide by 5.5 average depth pool. The pool is
for extended use during the summer season. The Coldest air temperature anticipated is 65° F.

STEP 1:

For extended use, the desired heat-up rate is 1°F/ Hour.

STEP 2:

Pool capacity = 7.5x30'x16'x5.5=19,800 gallons.

STEP 3:

(Selection table located in the maxi-flo manual) A 20,000
gallon pool capacity and 1°F heat up rate requires: A Boiler
Output of 167,00 Btu/ Hr and Heat Exchanger Model - WMPH-200.
Boiler output is greater then the heat loss to the surroundings.

STEP 4:

Surface Area: 30ft. x 16ft = 480 sq. ft.
Heat Loss: 12 x 480 x (80°F-65°F) = 86,400 BTU

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

WMCR-4E - 4 Zone Exp Module	389-900-209
WM-ODR - Outdoor Reset Control	389-900-210

- 1) Doubled sided printed circuit board construction is 100% factory tested.
- 2) Clearly marked terminals with quick connect screwless clamps.
- 3) Plug-in replacement priority relay.
- 4) LED diagnostic lights for easy troubleshooting.
- 5) Will operate four or six 24-volt (powered open or powered close) Zone valves including: Taco, Superior, Erie, Honeywell, B & G, SPARCO and most other motorized heat motor type valves.
- 6) Switchable priority improves versatility.
- 7) Plug-in Replacable isolated contact relay.
- 8) 24 VAC constant power for 5-wire zone valves (such as Honeywell VC Series 40 and 80 valves.)
- 9) Isolated end switch terminals, X-X
- 10) Powerful transformer (40 VA on WMZV-4, 75 VA on WMZV-6)
- 11) Galvanized steel enclosure with enamel painted cover.

In the interest of continual improvements in product and performance, Weil-McLain reserves the right to change specifications without notice.

WEIL-McLAIN Canada Sales Inc. – Terms and Conditions for Sale

Trade Prices – All prices and terms shown herein supersede all prior Trade Price Books, List Price Sheets, Price Lists, Stocking Distributor Discount Schedules, and quotations and are subject to change or withdrawal without notice.

Orders are accepted only with the understanding that invoicing will be at the prices and discounts in effect at the time of shipment and are subject to the terms, conditions and provisions contained in this Trade Price Book, order status reports, invoices, sales department bulletins and quotation forms. Orders shall not result in a contract until accepted and acknowledged by Weil-McLain at our home office in Burlington, Ontario. Weil-McLain is not bound by any terms on Distributors' order forms that attempt to impose any conditions at variance with Weil-McLain's Terms and Conditions for Sale.

Our Trade Price Schedules are for use by Weil-McLain Distributors and their contractor-customers as a listing of current hydronic products with suggested trade prices. These prices, however, do not necessarily represent price levels in Distributors' local markets, nor do they limit in any way the Distributor's right to set their prices for resale.

Quotations – All written quotations automatically expire unless accepted within thirty (30) days of the date quoted, unless otherwise stipulated.

Submittals – Where submittal material is required for a specific installation we must receive a "hold for approval" purchase order at our home office in Burlington at the time of request for submittal. If a Weil-McLain quotation has been given, this quotation or quotation number must be a part of the purchase order. Release of such purchase order must be either by copy of the approved submittal, a copy of our submittal with noted changes, or release of the purchase order as written. We cannot accept orders that are marked "per specifications."

Payment and Cash Discount – Invoices will be subject to one of the following:

1. Non – stocking distributors: net 30 days from date of invoice.
2. Stocking Distributors: 2% discount **Due the 10th day of the month following the date of invoice** or
3. Invoice will be due **net 30 days** from the date of invoice.

The cash discount is to be computed on the total amount of the invoice before any additions or taxes are applied.

The rate of interest of 2% per month will be charged on all past due accounts.

An order for items which total less than \$25.00 will be shown on the invoice at \$25.00 minimum.

Taxes – Any Sales Taxes payable on the transaction under any effective statute are to be added to the price and terms quoted.

Delivery – Weil-McLain shall not be liable for any delay or failure in delivery of shipment of products or for any damages suffered by reason of such delay or failure, when the delay or failure is directly or indirectly due to fire, flood, accidents, acts of God, riots, war, embargo, labor stoppages, inadequate transportation facilities, shortage of materials or supplies, regulation by Governmental authority or any other cause or causes beyond our reasonable control. Weil-McLain reserves the right to allocate available production among its customers in such manner as it in its sole discretion deems necessary or desirable.

No claims on goods received at variance from order or shortages in orders will be allowed unless presented within ten (10) days after receipt of goods.

The responsibility of Weil-McLain ceases upon delivery of materials in good order to the transportation company. As all merchandise is shipped at consignee's risk, it should be examined carefully before signing delivery receipts. If transportation company tenders delivery of merchandise in bad order, consignee should insist on transportation company's agent making notation of condition on delivery receipt, thus enabling the consignee to secure payment of transportation claims which may be filed by him for value of damaged material. No claims on goods received damaged will be allowed unless presented within ten (10) days after receipt of goods.

Transportation – Shipments of Weil-McLain products are f.o.b. Burlington, Ontario, Canada.

Freight allowance to one destination for Commercial cast iron products is 20,000 lbs. min or 20+ Residential Boilers.

Any additional service charges performed by carrier at destination that are not included in the road haul rate are the responsibility of the consignee.

Weil-McLain reserves the choice of transportation facilities and shipping point.

Freight allowances and freight program are subject to change without notice.

Labour or Material Claims – Weil-McLain will not be responsible for any labour or material claims without prior written approval from the Burlington, Ontario facility.

Returned Goods – Material not defective and of current standard manufacture must not be returned without first securing a Return Goods Assessment Form (RGA) and when returned it must be crated or cartoned for protection in transportation. It will be subject to a deduction of twenty (25) percent for rehandling, and all transportation charges, including freight and cartage, will be paid by shipper. Credit will not be given for material received in damaged or used condition. Material made on special order or obsolete material is not subject to return. Material will be assessed by Weil-McLain and the assessed value issued via credit note.
